

# James Winn for Wicomico County Council at Large

As a leader who focuses on serving the people of Wicomico County and our shared priorities, I want to successfully ensure that our county residents are aware of their choices and the future implications of our November elections, **I am asking for your financial support today to support our Winn campaign and to get our Winn- ing message out to all Wicomico County voters. Donations can be made online. <https://jameswinn4office.com/>** or checks can be mailed to:

**Citizens for James Winn,  
Rebecca Tittermary, Treasurer  
110 W London Avenue  
Salisbury, MD 21801**

As an 18-year resident of Wicomico County and third-generation small business owner of Acme Ceramic & Tile, I know that much can still be done to preserve and to improve our Eastern Shore way of life.

## **More about James Winn**

- Strong Conservative Values
- Supporter of First Responders
- Supporter of Farm Families
- Supporter Small Business
- Servant Leader

## **Why am I running for Wicomico County Council at Large?**

I truly want to make a difference. I remember feeling sick and tired of being sick and tired and thinking to myself, if I want to make a change, it's up to me to take action. Truthfully, I never had any intention of running for office, but I want to be the voice for the everyday working resident. I want to do more with government with less money. I have spent a lot of time formulating my plans. I have enjoyed meeting residents throughout our county and familiarizing myself with all areas. I offer a fresh common-sense perspective.

## Top Priorities of the James Winn Campaign

I have nine areas of focus, but my immediate concentration is on public safety, small business, and smart growth.

- **Public Safety:** Our police and fire departments are in desperate need of recruitment and retention strategies in order to prepare for the future. I fully support our law enforcement agencies and our local fire departments and will prioritize efforts directly related to their support.
- **Small Business:** As a small business owner myself, I can say with much confidence that small business owners need less government regulation and lower taxes. Small businesses thrive when the government stays out of the way.
- **Smart Growth:** We have to build our local economy with smart growth - not just any growth.

## What issue needs immediate attention?

Our local police and sheriff's department employees are underpaid and non-competitive with other nearby agencies. Our fire departments lack viable recruitment strategies. I have had the honor of being hosted by many fire departments over the last few months, and the thing I have heard over and over again is the need for recruitment. I'd recommend starting with incentives such as tax credits. We need to rearrange funding priorities and offer higher salaries for our police officers. But ultimately, we have to remember that no amount of money or incentives will help us retain the best of the best if we continue to implement legislation that ties the hands of the counties and municipalities and overregulates. I will continue working directly with our public safety agencies to align the resources they so desperately need and deserve.

I am honored to have the support of many Wicomico County community leaders:

**Along with your support, I am asking for a donation to help us *WINN Wicomico* in November!**

In His Service,

James Winn
