To: Major Michael Merican, Assistant Sheriff

Subject: Annual Audit of Property/Evidence

Date: October 25, 2019

On October 22, 2019, I conducted the annual audit of property and evidence in the custody of the St. Mary's County Sheriff's Office. This inspection was completed pursuant to the St. Mary's County Sheriff's Office Policy (B4.03.028) Property Control, Standard Operating Procedure (SOP) Property and the Commission on Accreditation of Law Enforcement Agencies, Inc. (CALEA) specifically CALEA standard 84.16 (d) and Appendix K, requiring "an annual audit of property and evidence by a supervisor not routinely connected with control of property and evidence."

The storage areas inspected [REDACTED]

I found all property areas to be clean, but somewhat congested. We are working to unclutter the areas of the gun room [REDACTED]. The majority were well organized considering the limited space and **106,901** items stored. Evidence was labeled and organized by year and case numbers; and the barcoding system through Central Square Technologies, (Formerly H.T.E/ Superion) allowed items to be located and pulled for inspection with ease.

[REDACTED]

[REDACTED] The revised firearm and general property purging procedures established in 2015 and continuing, have progressively reduced the number of items held in storage and continue to free storage space issues until a new facility is available in future years.

[REDACTED]

[REDACTED]

The audit inspection included the review of a relative sampling of property records, to include the total retrieval of (292) pieces of property from (30) respective cases, (26) of those cases being *high risk*, and over \$2,375 in US currency which all were in good order. An inventory of the cases audited is attached.

The inspection was completed and the overall operations of the Property Evidence Section were found to be in good order. Space needs continue to be a priority and staffing concerns remain, especially as they relate to the future efforts to improve purging/destruction. Agency policies and procedures were found to be adequate and the section conducts business accordingly.
